CHAIRMAN MESSAGE

“Literacy is the basic right of every Individual and to provide quality education to each student is the moral duty of every teacher”.
Lighting the spark of human curiosity i.e. within students is the theme of Osmani Educational Society
Teaching is creative and not simply acting as a medium to transmit information to students. We are passionate not only broad education but also ensure that we can attract students to the vibrant industry. We know that education must scale to be delivered as efficiently and cost effectively as possible. It is necessary to make connections among ideas, to communicate them, and to be able to work in diverse groups to create, to analyze, and to find solutions to complex problems.
It will be about a child’s ability to understand technology not as an end in itself, but as a tool for a task. Teaching does not need to be limited to textbooks and blackboards. With our fun school activities for kids, learning in school becomes an interesting and enjoyable exercise. It has to be connected with inquiry and problem solving.

Our students’ achievements is testimony of the effort and hard work put in by our students, the teachers who have structured and guided their learning, and our parents who have done so much to support them.

Join us in our mission for to make our School a place children love to attend, a place in which parents believe their children are receiving an education second to none, and a place in which teachers express their joy of working with pride.

Dr. M.A. Osmani

About School

Model English Hr Sec. School is a co-educational, English medium School where strong cultural values, national integration & brotherhood are taught to children serving for more than 22 years. The ultimate goal being the inculcation of highest values which should not only be learnt & imbibed but it should be retained & practiced all throughout the life so that a strong, healthy, mentally aware & socially well-adjusted human being enters the society. Academic excellence along with co-curricular activities has been the hallmark of Model English Hr Sec. School. Model English tries to infuse in the student acumen that help them emerge as a harmonious personality. The school has experienced teaching staff & skilled non-teaching staff members who focus on the all round development of the child.

We provide a balanced approach to learning,

- where your children learn while having fun.
- We recognise that quality education comes through:
 - Conducive learning environment
 - Standardised and innovative teaching methods
 - Qualified and experienced teachers

Our Approach to Education

We provide a balanced approach to learning, where your children learn while having fun. We recognise that quality education comes through: Conducive learning environment Standardised and innovative teaching methods Qualified and experienced teachers Balanced curriculum We believe that curriculum plays a vital role in every preschool activity, right from interactions and meals to singing and playing. We never miss an opportunity to educate. We have the best-in-class curriculum designed in-house using a combination of Playway and Montessori methods. Recognising that no two children develop at the same pace, our curriculum provides a framework for highly individualised and flexible learning experiences through conducive methods. Every curriculum-based activity is designed with a specific lesson or outcome in mind. We teach children Life Skills and Value Education that go beyond reading, writing and arithmetic. Playing with toys, listening to music and activities with other children develops motor skills and teaches lessons in sharing. Socio-dramatic plays, creative crafts and festival celebration instil an interest in arts while forging social bonds

Vision

Model English Hr. Sec School is committed to the development of young minds into knowledgeable, confident, successful and responsible global citizens. Through the use of modern teaching methods, state-of-the-art facilities and top-class faculty, we aim to create an environment that promotes creativity, curiosity and individual excellence through self-discovery.

Mission

We will raise a generation founded on life values of Honesty, Respect, Responsibility and Citizenship.

The students of our school will compete only with their own abilities, striving to improve their own record.

We will inculcate a passion for learning and a curiosity about the world, making our students learners for life. We will fortify students with the ability to discipline their own study experience.

For our students, the frontiers of learning extend beyond books and into the enrichment provided by art, drama, music and sports.

Every student of our school will be an asset to the community, applying his knowledge and thinking, through community service to the betterment of the community.

Our ambition is to produce Global Citizens of the 21st Century by exposing them to world issues and perspectives.

+zA. Early Years (Play Group – Pp2)

As the most important formative phase in a child's life, our special emphasis will be to develop young minds that learn through play, thrive on a fertile imagination, absorb information and experiences from around them, and feel completely secure in the warmth and comfort of a conducive environment.

B. Primary (Grades I to V)

Primary offers a flexible curriculum with integrated assessment for 5 - 11 year olds. Primary sets clear learning objectives in English, Mathematics and Science skills for each year of primary education. It focuses on learners' development in each year and provides a natural progression throughout the years of primary education, providing an benchmark.

C. Secondary 1 (Grades VI to VIII)

Secondary, offers a flexible curriculum with integrated assessment. It builds on the foundations of Primary. Designed for 11 - 14 year olds, Secondary develops learners' skills and understanding in Mathematics, English and Science for the first three years of secondary education, and provides excellent preparation for Secondary and qualifications including CBSE.

D. Secondary 2 (Grades IX to XII)

Secondary 2, offers a flexible curriculum with integrated assessment. Designed for 11 - 14 year olds, curriculum for 14 - 17 year olds, leading to recognized and valued qualifications.

Experiential Learning

Practical work is an effective way of learning and reinforcing theoretical concepts in Science. Through practical work teaching is enhanced and becomes more interesting - both, for the learner and teacher.

Interactive Lab

Students will be exposed to put in their talents to create something of their own and discover a new invention. They will be engaged in observing, asking questions about why things happen in the way they do, and evaluating.

They will also be encouraged to plan, measure, record, look for patterns, voice and debate their findings and ideas, and this will be enhanced through experimentation.

Science Lab

labs will provide all the equipment that would be in use to conduct experiments for the Physics, Chemistry and Biology streams.

Computer Lab

The very best of modern equipment with only branded computer products will be put to use for all student interaction and engagement during in-school assignments.
